Brainstorming

Use the following pages to start the process of deschooling with your child. First, determine what you think education best looks like. Think about what it should focus on and how you think people best learn. Then, consider activities you can do based on various subjects. Last, plan out a couple of weeks using your ideas. Remember to keep it fun, filled with activities, games, crafts, and field trips.

How We Learn

The Mind Mapper

Organize your ideas

How do we educate in the public school system?

What was your favorite subject or topic and why?

What's missing in our educational approach within our current educational system?

Choose the style that most aligns with your view of how people learn BEST and enjoy learning.
People learn best through:

Who was your favorite teacher and why?

What's a way you wish you were taught differently in school?
